

TECHNICAL SPECIFICATION

Electromagnetic transformers for low voltage lamps

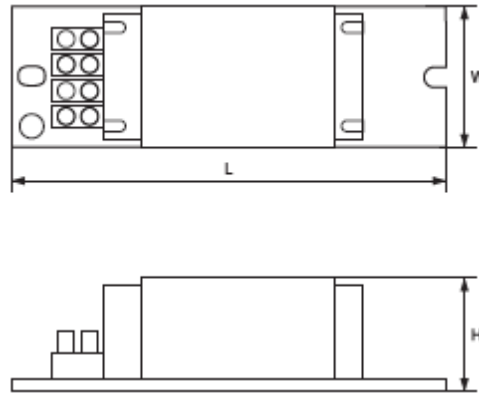

Technical data

- Input voltage: 230V / 50Hz
- Output voltage: 11.5VAC
- Power options: 50W; 105W

- Shape 32x41
- Electromagnetic safety transformers for low-voltage halogen lamps 12V
- Vacuum-impregnated with polyester resin
- Screw terminals : 0,5-2,5mm²
- Protection Class I
