ELMARK AF SERIES EASY MOUNTING

3+0 standard +extended 3 YEAR TOTAL WARRANTY

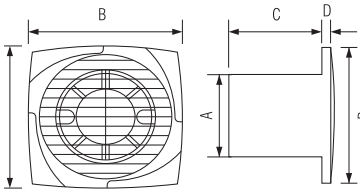

Axial fans, for exhaust ventilation

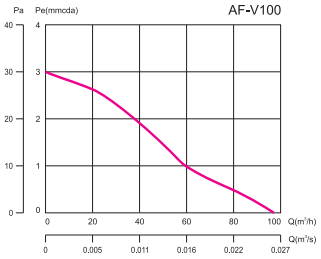

AREAS OF APPLICATION
Kitchens, Showers, Bathrooms, Utility spaces

OPTIONS:
- V-Valve: Back flow preventing. Fan is equipped with a valve
- VT- Timer + Valve: Adjustable operating time from 3 to 15 minutes. Fan is equipped with a valve.
- VH- Higro-Timer + Valve: Humidistat detects humidity starting from 40% to 90%, includes adjustable
- timer from 3 minutes to 15 minutes. Fan is equipped with a valve.
- Compatible with 100 and 120 mm PVC or flexible air ducts

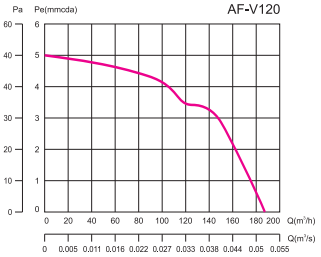

MOTOR:
- Equipped with thermal cut out protection
- Low power consumption
- High materials quality and high efficiency
- Ambient temperature max 130°C
- IP-X4
- Insulation class B

DESIGN:
- Easy mounting system
- Very slim front panel
- Plastic housing and impeller
- Modern design and aesthetic look

ELECTRIC WATER HEATERS

TANK WATER HEATERS, BILIGHT VERTICAL SERIES

TESY
It's impressive

The appliances is intended to supply hot water to household sites equipped with a piping system working at pressure below 6 bar (0,6 Mpa). Abundant selection of vertical and horizontal models that easily fits in narrow and limited spaces. A distinctive feature of all BiLight electric water heaters is the two-colour indication, which visualises the two operating modes: red light for Heating Mode and blue light for Ready-to-use Mode.

FEATURES:

- Copper heating element
- BiLight indication: red light for heating mode and blue light for ready to use mode
- Piston effect: ensuring up to 15% more hot water.The nozzle slows down the mixing of the incoming cold water and the water already heated in the appliance through leveling the pressures in the mixing area
- On/Off switch
- Anti-freeze function
- Eco position of the thermoregulator for cost efficient and prolonged operation
- No thermal bridge
- Stainless steel pipe
- Plasma welding
- Energy class C

MARKETS:

Water heaters with rated power 3000W and M030426 are available for BG market.
2000W: Available for RO; RS; CR & SI markets.

SUPPORT:

Warranty and service support is possible only in the countries where the products are offered.

TANK WATER HEATERS, BILIGHT SERIES WITH HEAT EXCHANGER

TESY
It's impressive

The electric water heaters of the BiLight range with inbuilt heat exchanger /serpentine/ are a product solution for utilization of alternative sources of heat energy such as solar thermal collectors, gas-burning and solid fuel boilers.

FEATURES:
- Inbuilt heat exchanger (serpentine)
- Insutech - an in-house TESY technology for highly efficient insulation and extremely low heat losses
- Copper heating element
- BiLight indication: red light for heating mode and blue light for ready to use mode
- Piston effect: ensuring up to 15% more hot water. The nozzle slows down the mixing of the incoming cold water and the water already heated in the appliance through leveling the pressures in the mixing area

TANK WATER HEATERS, ANTICALC CERAMIC SERIES

TESY
It's impressive

The water heaters in the Anticalc series have been developed for long-term and reliable operation in households supplied with hard, highly mineralised and/or chemically aggressive water. The enlarged area of the dual heating element, housed in an enamelled steel enclosers with a smooth surface, substantially slows down and limits the process of limescale deposit. The appliances in the family work noiselessly and are easy to service, as they do not require preliminary draining of the water tank.

FEATURES:
- Dual dry heating element
- Protection against limescale
- Noiseless operation
- Easy maintenance
- Two power settings
- External regulator
- Cost efficient operation
- Precise capillary thermostat
- Extented product life
- Energy class C

MARKETS:
Water heaters with catalogue numbers M030406; M030407; M030408 and M030458 are available only for BG market.
Water heaters with catalogue numbers M030417; M030418; M030419 are available for RS, RO, CR & SI markets.

TANK WATER HEATERS, BELLISLIMO SERIES

TESY
It's impressive

BelliSlimo is a fusion of intelligent high-tech advantages and an exclusive Italian design rendering flat and slim silhouette, attainting a space-saving compact size, which ensures easy installation according to various needs. BelliSlimo is reversible and appears both as a horizontal and a vertical piece of art for everyone's taste and space. It raises the bar as it implements next-generation technology and delivers ultimate comfort by combining user-friendly electronic panel and all distinctive TESY advanced innovations. The ECO Smart mode grants an optimum operation with a low energy consumption, achieving the highest possible Energy Class B in its range.

FEATURES:
- Work-on-demand mode: BelliSlimo calculates the time required for your water to heat up just in time.
- Energy class B: The highest energy class in its category.
- Reversible: Can be installed vertically or horizontally.
- Eco smart mode: Self-learning and self management
- Double tank: Two water tanks with separate copper heating elements.
- Quick first shower
- Vacation mode: to reduce water heater's and energy consumption activity.
- Boost function
- Reverse counter: Counts down until the water heater reaches the desired temperature.
- Copper heating element
- Energy class B

TANK WATER HEATERS, BELLISLIMO DRY

TESY
It's impressive

BelliSlimo Dry is the solution where space-saving in regions with hard or aggressive water is a key priority. This high-tech double tank electric water heater with an exclusive Italian design, 28 cm in depth for an easy installation, has two dual dry heating elements that grant a reliable protection against lime scale.

FEATURES:
- Dry heating element
- Energy class B: The highest possible in its range
- Work-on-demand mode: BelliSlimo calculates the time required for your water to heat up just in time.
- Reversible: Can be installed vertically or horizontally.
- Eco smart mode: Ensures optimum management for low energy consumption obtaining the highest possible in its range Energy Class B
- Double tank: Two water tanks with separate heating elements
- Vacation mode: to reduce water heater's and energy consumption activity.

TANK WATER HEATERS, MODECO

TESY
It's impressive

The vertical water heaters of the ModEco series are next-generation appliances accommodating all technological and product innovations people have come to expect from TESY in terms of energy efficiency, trouble-free and long term operation.

FEATURES:
- INSUTECH Plus: an in-house TESY technology for highly efficient insulation and extremely low heat losses
- Piston effect: for supervision of the speed of incoming water and increase of the hot water amount with up to 15%
- BiLight indication: red light for heating mode and blue light for ready to use mode
- Freeze protection
- Glass-ceramic coating for corrosion protection
- Plasma-arc welding of the water tank for extended useful life.

TANK WATER HEATER, MODECO CERAMIC

TESY
It's impressive

"Next-generation electric water heaters, combining modern design and eco-friendly smart technology. The 32 mm highly efficient PU insulation guarantees low thermal losses, meeting the highest requirements of the European markets. Equipped with a ceramic heating element, providing reliable protection against aggressive water."

FEATURES:

- Ceramic heating element
- Limescale protection
- Noiless operation
- Quick first shower
- Easy maintenance without draining
- Two power settings
- BiLight indication: red light for heating mode and blue light for ready to use mode
- Piston effect: ensuring up to 15% more hot water.The nozzle slows down the mixing of the incoming cold water and the water already heated in the appliance through leveling the pressures in the mixing area
- No thermal bridge

TANK WATER HEATERS, COMPACT SERIES

Compact 10L / 15L

Compact 5L / 6,5L

Compact 27L

The water heaters of the Compact family are suitable for installation in small and narrow spaces close to the point of use of hot water. Depending on the room interior and the existing utilities, such appliances can be installed under or above a sink or mixing tap.
The flat base of the 10 l and 15 l models for under-the-point-of-use installation allows direct on-floor or in-cupboard placement, which avoids wall drilling.

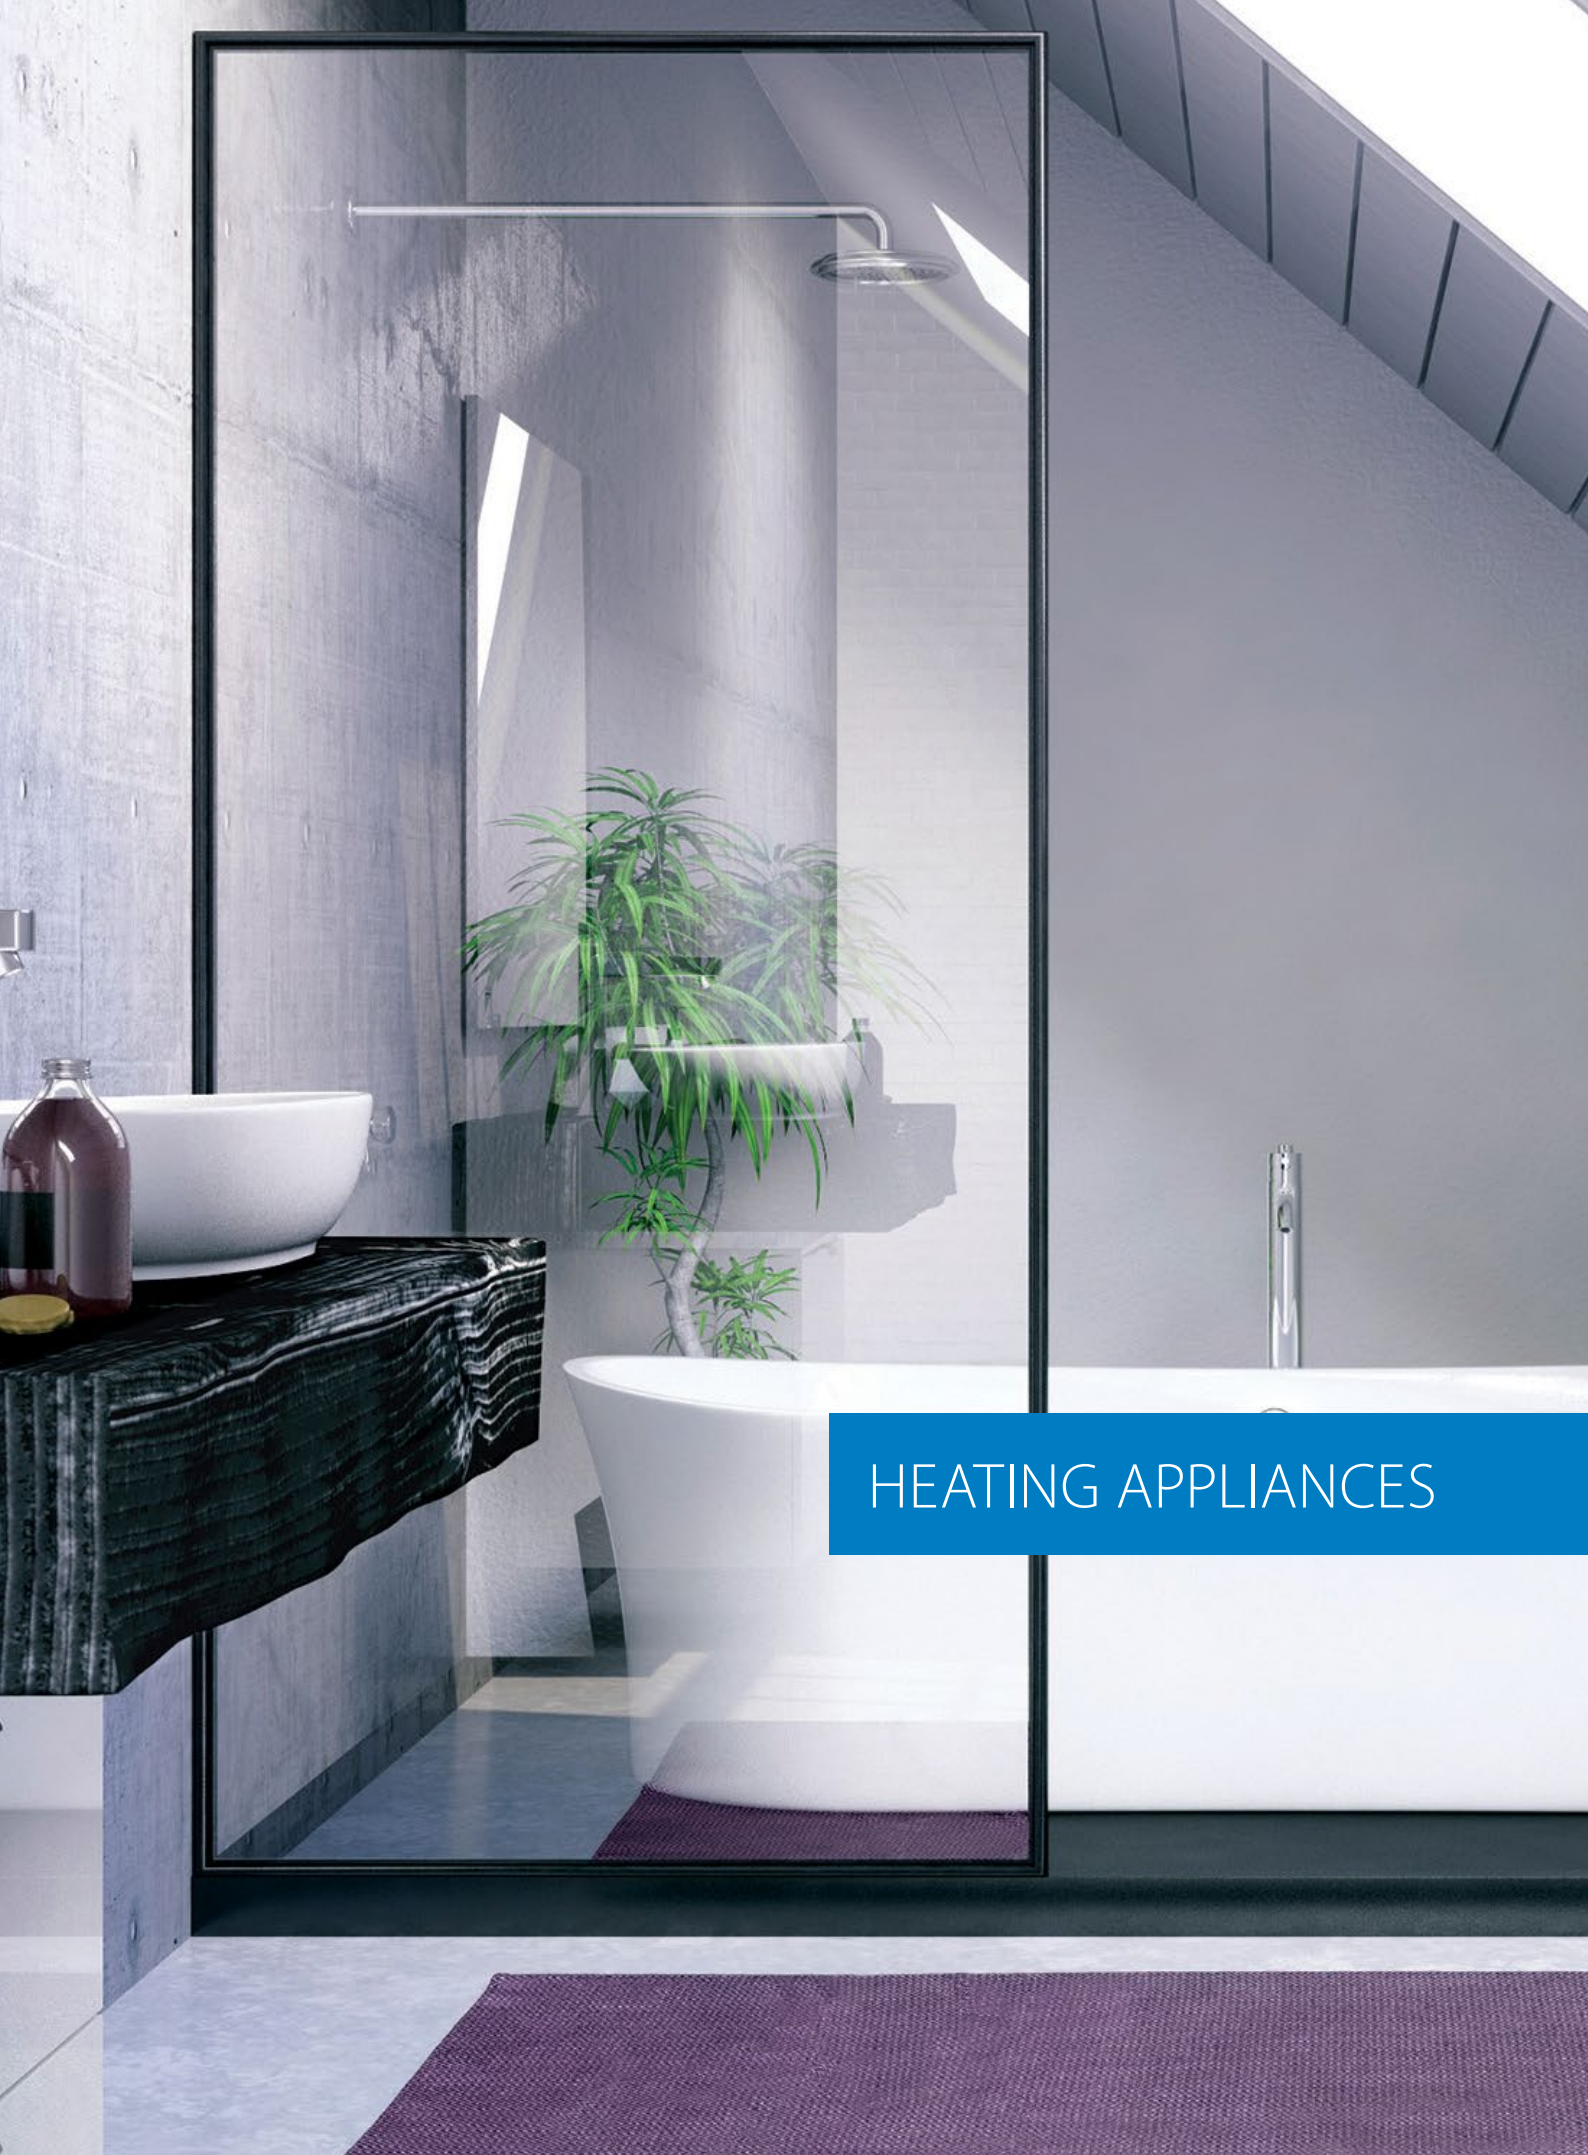

FEATURES:
- Elegant compact design
- Saves space
- Convenient push-push thermoregulator for smooth water temperature setting
- Red light indication for heating mode
- Blue light indication for ready-to-use mode
- Above and under the sink installation
- Energy class B
- Energy class A (Cat. Number M030102)

HEATING APPLIANCES

OIL-FILLED RADIATORS, CB SERIES

TESY
It's impressive

Oil-filled radiators are considered to be one of the most efficient household electric heating appliances

FEATURES:
- The radiator's heating surface is enlarged up to 40%
- Three power settings
- Convection and radiant heating effect
- Light indicator
- Adjustable thermoregulator
- Anti-frost protection
- Overheating protection
- Tip-over protection
- Fast heating and Silent operation
- Heating element protected from pet's fur, which increases its lifecycle.
- Convenient cable reel
- Built-in 500 W fan heater (for models E01 V)

MARKETS:
Available for BG; RO; RS; CR; SI & EL Markets.

SUPPORT:
Warranty and service support is possible only in the countries where the products are offered

Model	Rated power (W)	Num. of fins	Heating area	Width (mm)	Height (mm)	Depth (mm)	Product category	Catalogue number

FLOOR-STANDING ELECTRIC PANEL CONVECTORS WITH MECHANICAL TERMOREGULATOR, HEATECO SERIES

TESY
It's impressive

Electric panel convectors ensure faster room heating and lower electricity costs.

FEATURES:
- Optimal convection
- Adjustable thermoregulator
- Bathroom usage option- IP 24 protection
- Anti-frost protection
- Tip-over protection
- Overheating protection
- Switch with protection cap
- Robust metal construction
- Floor standing
- Casters not included: Four pices set. Cat number: M048109

MARKETS:
Available for BG; RO; RS; CR & SI Markets.

SUPPORT:
Warranty and service support is possible only in the countries where the products are offered

TESY
It's impressive

WALL MOUNTED ELECTRIC PANEL CONVECTORS WITH ELECTRONIC TERMOREGULATOR, HEATECO SERIES

Electric panel convectors ensure faster room heating and lower electricity costs.

FEATURES:
- Optimal convection - up to 25% faster room heating
- Precise thermoregulator with an accuracy of 0.1° C
- Electronic thermoregulator 10-30° C
- Thermostat calibration to achieve the desired comfort: temperature correction ±4° C
- Weekly programmer 24/7 with 30-minute step
- Adaptive start with On/Off option - provides optimal comfort and saves energy
- Bathroom installation option: IP 24
- Delayed start function- 96 hours
- Anti-frost protection, fixed on 5° C, with On/Off option
- Keyboard lock
- Overheating protection
- LED display indicating desired and actual room temperature
- Robust metal construction

ACCESSORIES:
- Are available separately: allow you to use your product as a floor-standing convector.
- Legs: Two pices set. Cat number: M048108
- Casters: Four pices set. Cat number: M048109

MARKETS:
Available for BG; RO; RS; CR; SI & EL Markets.

FLOOR-STANDING ELECTRIC PANEL CONVECTORS, CN 214 ZF

Floor-standing fan heater with resistive wire

FEATURES:
- Three power settings: 800 W/1200 W/2000 W
- Adjustable thermoregulator
- Light indicator
- Heating element - resistive wire
- Anti-frost protection
- Overheating protection
- Power cord: 1.7 m
- Noise level: 45.4 dB(A)
- Floor standing

MARKETS:
Available for BG; RO; RS; CR; SI & EL Markets.

SUPPORT:

FLOOR-STANDING FAN HEATER HL 213 V

Floor-standing fan heater with resistive wire

FEATURES:
- Two power settings: 1000 W/2000 W
- Classic design
- Compact and lightweight
- Adjustable thermoregulator
- Light indicator
- Summer ventilation
- Heating element - resistive wire
- Anti-frost protection
- Overheating protection
- Power cord: 1.5 m
- Noise level: 45.9 dB(A)
- Floor standing

SMART HOME CONTROL

IP20

ONE CHANNEL RECHARGEABLE LED PANEL REMOTE

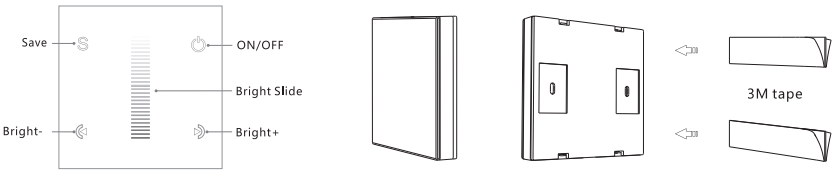

3+0 standard +extended 3 YEAR TOTAL WARRANTY

FUNCTION:
- To control single color LED lamp
- Removeable and stick easily
- With on/off state and touch operation indication
- Can remote control multiple controllers or lamps
- High precision touch chip with high sensitive & high stability touch control

TECHNICAL DATA:
- Wireless control (remote distance): 30m
- Standby time: 6 months
- Built-in rechargeable Li-Battery
- Working temperature: -30°C~55°C
- Product size: L86×W86×H13.5mm

TOUCH AC TRIAC RF DIMMER

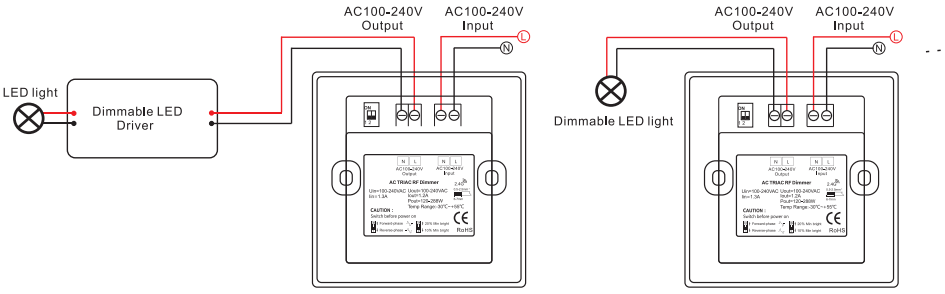

3+0 standard +extended 3 YEAR TOTAL WARRANTY

CONTROL: Domestic Wi-Fi
FUNCTION:
- Control is done by installed IOS or Android application via Wi-Fi relay with catalogue number 99RWIFI
- To dim and switch single color dimmable LED lamps,traditional incandescent and halogen lights
- Ultra sensitive high strength glass touch panel with touch brightness slide in the middle and backlighting
- Triac and Mosfet dimmable
- Workt with direct connected dimmable light
- Great compatibility with a variety of dimming remoter
- Leading edge dimming or trailing edge dimming set by dip switch
- Minimum brightness set by dip switch
- Change brightness, support push,long push operation

TECHNICAL DATA:
- Adopt 2.4GHz wireless technology
- Wireless control (remote distance): 30m
- Input voltage: 100-240VAC
- Output voltage: 100-240VAC
- Working temperature: -30°C~55°C
- Product size: L86×W86×H50mm

Download Skydance Application from Android market or Apple store.

FOUR CHANNEL CONSTANT VOLTAGE RECEIVER

3+0 standard +extended 3 YEAR TOTAL WARRANTY

CONTROL: Domestic Wi-Fi
FUNCTION:
- Four channel 2.4GHz RF wireless LED lighting dimming reciever
- Work as ON/OFF switch and RGBW controler with RGBW remoter
- Can also be used for RGB, RGBW, 2 x dual colour, 4 x single color LED strips
- Full compatibility with a variety of single color, dual color and RGB/RGBW remoters
- Through jump, strobe, gradual change style, fine adjust color, realize thousands of powerful editing effect
- 32 change mode optional
- Changing mode or loop mode can be stored to 8 scenes, or timming run
- Control is done by remote control, dimmer switch and/or installed IOS or Android application
- For more power control it can be equiped with amplifier

TECHNICAL DATA:
- Wireless control (remote distance): 30m
- Dimming range: 0-100%
- Product size: L97×W33×H18mm

AC TRIAC RF DIMMER

3+0 standard +extended | 3 YEAR TOTAL WARRANTY

CONTROL: Domestic Wi-Fi
FUNCTION:
- AC phase cut RF dimmer
- Control is done by installed IOS or Android application via Wi-Fi relay with catalogue number 99RWIFI
- Control is done by remote control
- To dim and switch single color dimmable LED lamps, traditional incandescent and halogen lights
- Triac and Mosfet dimmable
- Leading edge dimming or trailing edge dimming set by dip switch
- Minimum brightness set by dip switch

TECHNICAL DATA:
- Wireless control (remote distance): 30m
- Output voltage: 100-240VAC
- Output power: 240VAC: 288W
- Product size: L103×W67×H30mm

Input voltage	Output current	Packing/Box (pcs)	Product category	Catalogue number
100- 240VAC	1Channel x 1.2A	1/300	D	**99DIMMERT1**

AC TRIAC RF DIMMER SWITCH

3+0 standard +extended | 3 YEAR TOTAL WARRANTY

CONTROL: Domestic Wi-Fi
FUNCTION:
- AC phase cut RF dimmer switch
- Control is done by installed IOS or Android application via Wi-Fi relay with catalogue number 99RWIFI
- Control is done by remote control. Can accept up to 10 remote control
- Suitable to use with dimmer switch. Great compatibility with a variety of dimming remote
- Suitable to mounting in standard panel bottom box
- To dim and switch single color dimmable LED lamps, traditional incandescent and halogen lights
- Triac and Mosfet dimmable
- Leading edge dimming or trailing edge dimming set by dip switch
- Minimum brightness set by dip switch
- Connect with external push switch to achieve on/off and 0-100% dimming function.
- 256 levels 0-100% dimming smoothly without any flash.

TECHNICAL DATA:
- Wireless control (remote distance): 30m
- Input voltage: 100-240VAC
- Output voltage: 100-240VAC
- Output power: 240VAC: 150-360W
- Product size: L52×W25×H26mm

Input voltage	Output current	Packing/Box (pcs)	Product category	Catalogue number
100- 240VAC	1Channel x 1,5A	1/200	D	**99DIMMERMT**

REMOTE CONTROL SWITCHES

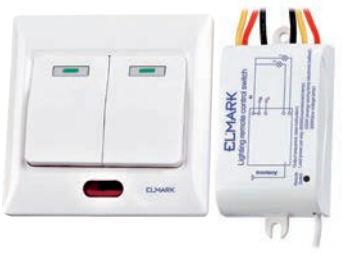

3+0 standard +extended 3 YEAR TOTAL WARRANTY

DESCRIPTION:
The remote devices for lighting control work through sending a frequent signal from the key to the receiver, which commands the connected to it lighting bodies. The installation of the key can be done in a standard round bracket as the advantage of this product is that there is no additional requirement for wiring from it towards the receiver. Thanks to this the product is widely used in premises with build in installations where there is no ability for adding the additional cable layouts and expenses for their building are reserved. The connection between the key and the receiver is through a frequent signal in the range -315Mhz – 433.92 Mhz.

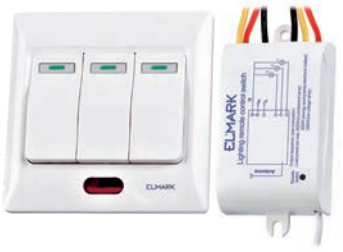

TECHNICAL DATA:
- Battery: 12V 23A
- Input voltage: 220- 230 VAC
- Cordless control of lighting fixtures
- Frequency: 315Mhz–433.92 Mhz

TEMPERATURE AND HUMIDITY MONITORING WIFI WIRELESS SWITCH

3+0 standard +extended 3 YEAR TOTAL WARRANTY

195002

EXTCORDAL560

195030

195031

CONTROL: From Anywhere via Smart Device
FUNCTION:
- Real-time ON/OF control and monitoring status from temperature and humidity with sensor
- Can turn switch ON/OF electrical devices without monted sensor
- This device works perfectly with electric fan, air conditioner, humidifier, smart fish tank, watering
- Time setting function- turn ON/OF at specified time after setting
- Supports max 8 enabled timing tasks
- Possibility to voice control with AMAZON ALEXA, Google Home(Stay tuned)

TECHNICAL DATA:
- Input voltage: 90-250VAC
- Output power: 3500W
- Output current: 16A
- Working temperature: 0°C-40°C (32°F-104°F).
- Product size: L114×W52×H32mm

SENSORS:
- 195030 - High-precision temperature & humidity sensor, -40°C/+80°C, 0~99.9% RH
- 195031 - Waterproof temperature sensor, IP68, -55°C/+125°C
- EXTCORDAL560 - Sensor extension cable - Length 5m

WI-FI FAN AND LIGHT SMART SWITCH CONTROLER

3+0 standard +extended 3 YEAR TOTAL WARRANTY

CONTROL: From Anywhere via Smart Device
FUNCTION:
- Direct Replacement: Simply replace your existing ordinary ceiling fan with lights controller with iFan03, you will immediately get a smart ceiling fan with lights
- APP&433MHz RF Remote Control: Through eWeLink App, you can remotely control the ceiling fan with lights with ease on iOS & Android smartphone anywhere and anytime. The device can be also controlled via the RM433 remote controller (included in the package). The small 433MHz remote controller design allows you to hang it on the wall as a wireless wall switch or remove it as a remote control as required.
- 3 Fan Speeds: The APP enables you to choose low, medium, and high fan speed to keep your room comfortable.
- Timer&Schedule: By presetting single, repeating, and countdown timers, the iFan03 WiFi Ceiling Fan&Light Controller can be automatically turn on/off at a specific time.

TECHNICAL DATA:
Input voltage: 100-240VAC
Fan Output Voltage: AC100-240V 50/60Hz
Fan Output Current: 2A
LED Output: Max. 300W/220V
RF Remote Control: 433.92MHZ"
Wireless Standard: IEEE 802.11 b/g/n 2.4GHZ
Size: 116 x 55 x 26 mm

SMART WIFI FOUR CHANNEL SWITCH

3+0 standard +extended 3 YEAR TOTAL WARRANTY

CONTROL: From Anywhere via Smart Device
FUNCTION:
- Real-time ON/OF switching electrical devices from anywhere
- This device is good for industrial control
- Three modes to work- Switch among interlock/self-locking/inching modes
- Posibility to turn on devices for 0,25-4 s
- Control each channel separately
- Control is done from anywhere with IOS or Android mobile application
- Time setting function- turn ON/OF at specified time after setting
- Control can by shared to another mobile phones
- Control electrical devices over Wi-Fi
- Supports max 8 enabled timing tasks
- Possibility to voice control with AMAZON ALEXA, Google Home(Stay tuned)

TECHNICAL DATA:
- Input voltage: 90-250VAC & 5-24VDC
- Output power: 4x2200W
- Output current: 4x10A
- Frequency: 2.4Ghz
- Working temperature: 0°C-40°C (32°F-104°F).
- Humidity: 5%-90%RH, Non-condensing
- Product size: L145×W90
- Mounting: DIN rail

Download EWeLink Application.

FOUR GANG WI-FI SMART SWITCH WITH RF CONTROL

3+0 standard +extended 3 YEAR TOTAL WARRANTY

CONTROL: From Anywhere via Smart Device
FUNCTION:
- Independently/Mutual Control 4 Devices: Turn on/off the 4 connected devices separately in self-locking mode. Turn on 1 device but turn off the other 3 devices at the same time in interlock mode. Turn on the connected devices but automatically switch off after 0.5-3600s later in inching mode
- Dry Contact: If your device does not need to be powered through the output of the 4CHPROR3, but only needs to use it as a smart switch to control the line on and off, the 4CHPROR3 is your best choice
- 433MHz RF Control.
- Easy To Out-of-Reach Devices: Mounted on the guide rail, convenient to connect and control devices far from the switch.
- Voice Control: Compatible with Amazon Alexa, Google Assistant, SmartThings, and Alice.

TECHNICAL DATA:
- Input voltage: 100-240VAC
- Output power: 2200W (per way)
- Output current: 10A (per way)
- Switch Channel: four ways
- Wireless Standard: IEEE 802.11 b/g/n
- Size: 145 x 90 x 34 mm

Download EWeLink Application.

DIN RAIL TRAY

3+0 standard +extended 3 YEAR TOTAL WARRANTY

FUNCTION:
- A Switchboard Solution: Allows you to install the Sonoff products to the DIN rail mounted switchboard.
- Catalogue Number: DR

NOTE:
SONOFF DR can work with most of our SONOFF products, including SONOFF BASICR2 / BASICR3, RFR2 / RFR3, POWR2, TH10 / 16, DUALR2.

IP66

IP66 WATERPROOF CASE

3+0 standard +extended 3 YEAR TOTAL WARRANTY

FUNCTION:
- Water-Proof: IP66 waterproof rating means the housing has a robust waterproof capability. Ensure your devices use in a wet environment safely
- Dust-Proof: Prevent your devices from dust entering.
- Catalogue Number: WATERPROOFBOXIP66

NOTE:
Waterproof case that can be used with SONOFF BASICR2 / BASICR3 / BASICZBR3 / RFR2 / RFR3 in the underwater environment. The waterproof level of the waterproof box is IP66. It allows you to remote control your lights or home appliances outdoor.

IP20

RM433 REMOTE CONTROLLER AND BASE

3+0 standard +extended 3 YEAR TOTAL WARRANTY

BASE FOR RM433 REMOTE
Catalogue number: RM433-BASE

FUNCTION:
- Remote Control: Control the connected devices remotely.
- Powerful Compatibility: Suitable for devices supporting RF433MHz communication protocol.
- Easy To Pair & One-Key Pairing: Press any button to pair with devices, and Sonoff D1 and iFan03/iFan04 can match the whole controller with just a press.
- Smooth Touch & Easy Installation: Sleek and modern design and fast installation with 3M adhesive tape or screws.
- User-Definable: 8 buttons can match 8 devices as you defined

TECHNICAL DATA:
- Working Voltage: 12V removable battery (Model: 27A)
- Number of keys: 8
- Material: PC V0
- RF: 433MHz
- Weight: 35g
- Size: 86 x 45 x 12,5 mm

WI-FI WIRELESS DOOR/WINDOW SENSOR

3+0 standard +extended 3 YEAR TOTAL WARRANTY

CONTROL: From Anywhere via Smart Device
FUNCTION:

- No Gateway Needed: The sensor is paired with App via Bluetooth and is controlled on App via WiFi.
- Low-Battery Reminder & History Records Check: There is a reminder on App about the low battery, and 3-month history records are automatically saved.
- Status Sync & Camera Binding: Check the status of the sensor through App to get the real status. You can also add a camera to view.
- Easy Installation: With Simple peel and stick installation, it is easy to fit in door frames and window sills.
- Note: Batteries are not included in the package.

TECHNICAL DATA:

- Working Voltage: DC3V (2 x 1.5V battery)
- Quiescent current: ≤ 40 µA
- Emission current: <15mA
- Operating systems: (Android 4.1 & iOS 9.0) or higher
- Wireless Standard: IEEE 802.11 b/g/n
- Installation gap: <5mm
- Material: PC V0
- Size Magnet: 42 x 14 x 16 mm
- Size Transmiter: 70 x 31 x 19 mm

Download EWeLink Application.

Acoustic sound baffle find application in many work and office spaces, conference and presentation halls, meeting rooms, retails, institutional and more. They significantly reduce noise pollution, minimizing reverberation and echo in the room, absorbing any reflect sounds from other surfaces, thereby increasing speech intelligibility and communication. They are mounted on the ceiling in rows or columns.

Features: High quality and easy mounting | Lightweight | Safe and non-toxic | Available in three colours | Possibilty to create custom design

Mounting: Hanging. Attach one piece of wire/cord onto each of the 2 eye hooks on the baffle.Then attach the other end of the wire to two equally-spaced hooks in the ceiling

RoHS COMPLIANT CE

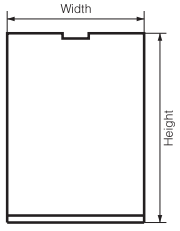

The products are not held on stock and are supplied only by a customer`s request.

Light is one of the most important space-shaping elements. Therefore it is worth to consider the quality of the selected lighting fittings.

The SMD LED series of modern fittings is an innovative solution of lighting that is functional and decorative at the same time. The fittings emit high quality light and their compact form, matching contemporary furniture, enables a multitude of arrangements. The fittings can be connected in order to achieve the lighting line of the desired length, and the energy-efficient LED light makes it possible to achieve a spectacular effect in any interior.

AUTONOMY EMERGENCY LIGHTING

The emergency lighting is aimed to be used in all cases when the power of the normal lighting is canceled due to occur of the emergency situation – an electric shock, fire, earthquake and etc. This assures the lighting needed and its continuous visibility, needed for the unimpeded leaving of the building through the emergency exits and it assures the ability for the easy recognition of the fireproof equipment and the signalization tools, positioned on the emergency roads.
The emergency blocks, offered by us, are suitable for autonomic lighting systems. They are with built in batteries and guarantee the autonomic switching on of the lighting body to which they are connected, if an emergency situation occurs, using the energy reserve of the battery. Similar lighting bodies do not need special power lines and they can be mounted anywhere, without a special need of support. Its main advantage is their independency of special built emergency lines and even if there is a damage in one of the emergency lightings, all of the others will keep on working. This gives an additional security and reliability of the whole emergency system.

EMERGENCY DRIVER FOR LAMP WITH EXTERNAL DRIVERS

3+0 standard +extended 3 YEAR TOTAL WARRANTY

The housing of this emergency driver adopts good-quality aluminum and flame-retardant plastic. It has low weight and being convenient to install, so you can rest assure its safety. Battery adopts Li-ion battery with long lifespan. Its PCB adopts SMT technology, using IC control design in charging/discharging and power supply part. PCB uses fully automatic SMT technology, PCB core use PN8355, DW01 and M8205A IC chips which are especially for emergency lights and Li-ion battery protections. PCB circuit has the complete protection designs for over charging/discharging.

OPERATED PRINCIPE:
The emergency driver is being charged when AC power works, when fully charged, the circuit will protect the battery from over being-charged, and the emergency is standing by as soon as the battery is fully charged. When AC power is down, emergency driver supplies power to LED fixtures and they up light to the way to escape.

TECHNICAL DATA:
- Input voltage: 85-265V AC
- Battery: 3.7V 2400mAh
- Emergency switch time: <2s
- Suitable: for LED lamp with external driver and power 3-50W
- Emergency time: >120min
- Working temperature: from -5 to +45°C
- Size: 130x58x22mm
- IP 30

RECOMMENDED:
For all LED panels and fixtures with external driver and power from 3-50W

EMERGENCY DRIVER FOR LAMP WITH INTERNAL IC DRIVERS

3+0 standard +extended 3 YEAR TOTAL WARRANTY

The housing of this emergency driver adopts good-quality steel models with powder coating. It has low weight and being convenient to install, so you can rest assure its safety. It mainly includes housing, PCB and battery etc. Its battery adopts Li-ion battery with long lifespan. Its PCB adopts automatic SMT technology, uses IC control design in charging/discharging and power supply part. PCB uses fully automatic SMT technology, PCB core use 3525 IC chips which is especially for emergency lights and Li-ion battery protections. PCB circuit has the complete protection for over charging/discharging,output Short Circuit, Open Circuit,input/output reverse connection.

OPERATED PRINCIPE:
The emergency driver is being charged when AC power works, when fully charged, the circuit will protect the battery from over being-charged, and the emergency is standing by as soon as the battery is fully charged. When AC power is down, emergency driver supplies power to LED fixtures and they up light to the way to escape.

TECHNICAL DATA:
- Input voltage: 85-265V AC
- Battery: 11.1V 2600mAh
- Emergency switch time: <2s
- Suitable: for LED lamp with internal driver and power 3-20W
- Emergency time: 60-180min
- Working temperature: from -10 to +50°C
- Size: 248x40x28mm
- IP 30

RECOMMENDED:
For all LED tubes and bulbs with external IC driver and power from 3-20W

EMERGENCY DRIVER FOR INDUSTRIAL LAMP WITH INTERNAL IC DRIVERS

3+0 standard +extended 3 YEAR TOTAL WARRANTY

This emergency driver is suitable for all 20-100W LED lamps with internal IC driver (This device CANNOT be used for the LED lights with RC driver). It can be used in public places to ensure LED lights work normally when power fail suddenly because of fire and earthquake and etc. The housing of this emergency driver adopts good-quality steel models with powder coating. It has low weight and being convenient to install, so you can rest assure its safety. It mainly includes housing, PCB and battery etc. Its battery adopts Li-ion battery with long lifespan. Its PCB adopts automatic SMT technology, uses IC control design in charging/discharging and power supply part. PCB uses fully automatic SMT technology, PCB core use 3525 IC chips which is especially for emergency lights and Li-ion battery protections. PCB circuit has the complete protection for over charging/discharging,output Short Circuit, Open Circuit,input/output reverse connection.

OPERATED PRINCIPE:
The emergency driver is being charged when AC power works, when fully charged, the circuit will protect the battery from over being-charged, and the emergency is standing by as soon as the battery is fully charged. When AC power is down, emergency driver supplies power to LED fixtures and they up light to the way to escape.

TECHNICAL DATA:
- Input voltage: 85-265V AC
- Battery: 18.5V 8800mAh
- Emergency switch time: <5s
- Suitable: for LED lamp with internal driver and power 20-100W
- Emergency time: 60-120min
- Working temperature: from -10 to +50°C
- Size: 290x105x50mm
- IP 44

RECOMMENDED:
For all LED road fixturec, high bayc, flood lights and lighting fixtures with internal IC driver and power from 20-100W

Sensor: detection range:120° | **Detection distance:** MAX 8 m(±2 m) | **Time setting:** 140±20 s | **Ambient light:** 25±10 lux

Terminal box IP44

Material: PC
Voltage: 450V
Rated current: 6A
Wiring Capacity: 0.5-4.0mm2
Cat. Number: 31071

Terminal box IP65

Material: Polypropylene 94-V2 grade
Sunscreen Rating:Sun Protection(UV)
Voltage: 450V
Rated current: 10A
Terminal Blocks: 3p screw type
Metal Part:Plated Brass/Steel Spring
Wiring Capacity: 0.5-2.5mm2
Cat. Number: 31070

Cable connector IP68

Rated operational voltage:AC250V
Rated operational Ampere(A):≤30A
Material: flame retardant/Anti UV nylon(PA66)
Crimping terminals:Nickle-plated brass
Withstand voltage(normal temperature):3KV
Operating remperature range: -40°C~+105°C
Wiring Capacity: 0.5-2.5mm2
Cat. Number: 31072

Body: Aluminium | **LED driver:** mounted in the body | **Light source:** 2835SMT Epistar | **Input voltage:** 100V-240V AC | **Ambient Temperature:** -30°C÷ +65°C

Material: PC
Voltage: 450V
Rated current: 6A
Wiring Capacity: 0.5-4.0mm2

Cat. Number: 31071

Terminal box IP44

Material: Polypropylene 94-V2 grade
Sunscreen Rating:Sun Protection(UV)
Voltage: 450V
Rated current: 10A
Terminal Blocks: 3p screw type
Metal Part:Plated Brass/Steel Spring
Wiring Capacity: 0.5-2.5mm2

Cat. Number: 31070

Terminal box IP65

Rated operational voltage:AC250V
Rated operational Ampere(A):≤30A
Material: flame retardant/Anti UV nylon(PA66)
Crimping terminals:Nickle-plated brass
Withstand voltage(normal temperature):3KV
Operating remperature range: -40°C~+105°C
Wiring Capacity: 0.5-2.5mm2

Cat. Number: 31072

Cable connector IP68

High-quality ABS material, environmental-friendly, sturdy and durable to use. Easy to install and convenient to use| Operated by 12V 23A battery (Not included) | When opening the cabinet,lamp will turns on automatically. When closing the cabinet, the light turns off

LED DECORATIVE CANDLE WITH REMOTE
Power supply:DC3.7V/200MAH(Rechargable Polymer Li-battery)
4hours to recharge,12hours working
LED lights identify the charging state
With ON/OFF and dimmer function
Time funtion 2H/4H/6H/8H
1set = 1 Candle + 1 charge + 1 remote

ENERGY EFFICIENCY LABELS

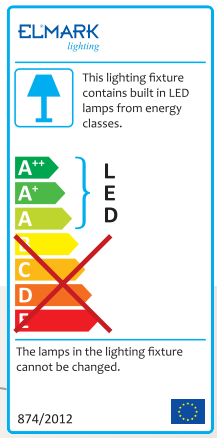

The information in brackets at the centre of the label indicates which lamps may be used for the luminaire. In this case, the product is only compatible with lamps with an energy efficiency rating of better than B.

If lamps are included with the luminaire, their energy classes are indicated at the bottom of the label.

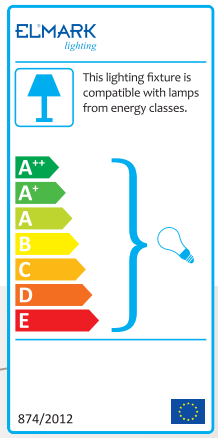

The information in brackets at the centre of the label indicates which lamps (which EEI) may be used for the luminaire. In this case, the product is compatible with lamps with all energy efficiency ratings.

If lamps are included with the luminaire, their energy classes are indicated at the bottom of the label.

This label indicates that the luminaire is sold with built-in LED lamps that cannot be replaced by the consumer himself.

This label indicates that no lamps are included with the luminaire. Consumers are free to choose their preferred lamp within the indicated energy classes.

INDICATES, WHICH LAMPS MAY BE USED FOR THE LUMINAIRE.

A++→A

The product is compatible with LED boards with energy efficiency - A... A++. The Luminaire contains highly efficient LED boards (cannot be replaced by the end consumer)

A+ A++→A

The product is compatible with LED boards with an energy efficiency rating - A...A++. The Luminaire contains highly efficient lamp A+.

A A++→E

The product is compatible with lamps with an energy efficiency rating - E... A++.
The Luminaire contains highly efficient lamp A.

B A++→B

The product is compatible with lamps with an energy efficiency rating - B... A++.
The Luminaire contains highly efficient lamp B.

A++→B

The product is compatible with lamps with an energy efficiency rating - B... A++.

A++→C

The product is compatible with lamps with an energy efficiency rating - C... A++.

A++→D

The product is compatible with lamps with an energy efficiency rating - D... A++.

A++→E

The product is compatible with lamps with an energy efficiency rating - E... A++.

A++ A+ A

incl. efficient LED lamps

B C

incl. efficient fluorescent lamps

D E

incl. halogen lamps

Energy efficiency labels

Supplier's name or trade mark
Supplier's model identifier

Energy efficiency class of the appliance

Coloured arrows are used to differentiate energy efficient from less energy efficient products: dark green indicates a highly efficient product and red a low efficiency product.

Annual energy consumption in kWh

SYMBOLS USED IN THE CATALOGUE

Protection class

The protection class indicates to what extent the lamp is protected against electric shock. All lamps in this catalogue are at least protected with the protection class 1 - a higher class is specified in the information box of the respective lamp.

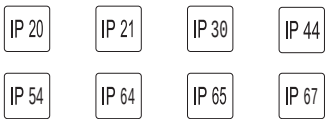

protection class 1:
protective earthing

protection class 2:
protective insulation

protection class 3:
protective low voltage

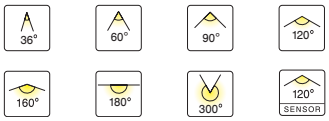

Protection rating

The protection rating ensures the operational safety of luminaires. The first number specifies the extent of the protection against the ingress of foreign bodies; the second number identifies the humidity protection grade. All luminaires in this catalogue are at least protected with the rating IP20 – a higher rating is specified in the information box of the luminaire.

Beam angle

The beam angle describes the „light cone" emitted by a directional illuminant. It corresponds to the angle at which the luminous intensity is 50% of the centre beam intensity. An illuminant is called directional if at least 80% of its light output is within a cone with an angle of 120°.

Average lifetime

The average lifetime of illuminants describes the time after which 50% of a number of illuminants has failed. For LED illuminants, the average lifetime is defined by a lumen maintenance of 70%.

Average lifetime

Colour rendering index

Colour rendering index (CRI) is a measure of a light source's ability to show object colours "realistically" or "naturally". Can take values from 0 to 100.

Dimmable

Light sources labelled as "dimmable" can be dimmed with a suitable commercially available dimmer. The dimmable range for LED might be restricted. If the sign is crossed the illuminant is not dimmable.

Dimmable
Non-dimmable

Warm-up time (60 %) (s)

Time for warming the lamp up to 60% of its full luminous flux (if the time is less than 1 second, it can be indicated as „instant full light").

Number of switches

Number of commutations until the untimely failure of lamp.

Mercury content

The content of Mercury in the lamp. If there is Mercury, this is shown as follows <X.X mg.

SMD LED

SMD is a type of LED module that use Surface mount technology (SMT) to mount LED chips on printed circuit boards (PCB). SMD LED modules are widely used for backlighting, home illumination, shop-windows, advertising, automobile interior lighting, Christmas lights etc.

COB LED

COB (Chips on Board) , is a new technology of LED packaging for LED light engine. Multi LED chips are packaged together as one lighting module. When it light up, it looks like a lighting panel.

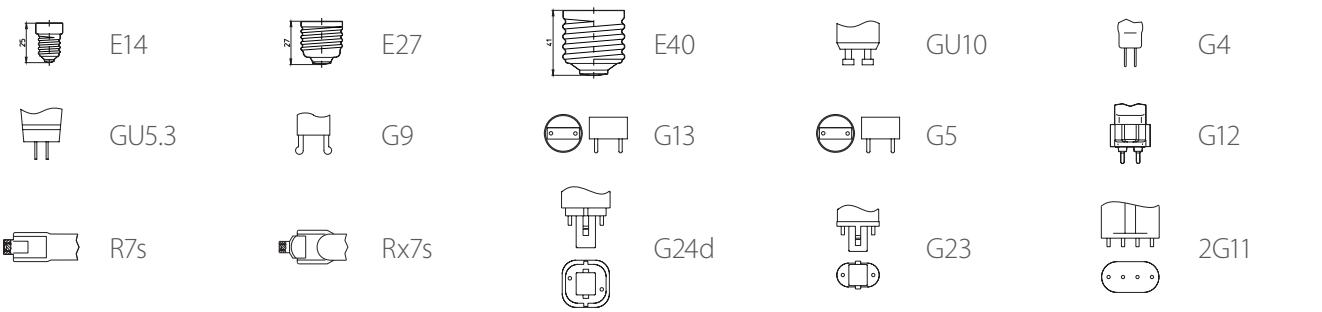

Type of diode

High power LED

HIGH POWER LED - a certain number of single diodes with small power - usually 1W, connected in a specific way, and mounted in one body covered by optics (lens). They are used in light sources and lighting fixtures with small beam angle and high luminous intensity.pe of diode

LAMP BASE

IMPORTANT: LED luminaires and lamps must not be connected in an electrical circuit, together with luminaires for discharge lamps

- EU directive compatibility mark
- Mounting on the normal flammable base
- Restriction of Hazardous Substances Directive
- Electromagnetic compatibility
- Adapted for 230V power supply
- Adapted for 230V direct current power supply
- Adapted for 230V via suitable power supply (transformer/ballast/driver)
- Adapted for 12V power supply
- Adapted for 12V direct current power supply
- Adapted for 12V alternating current power supply
- Adapted for 12V alternating/direct current power supply
- Power supply frequency

OUR RESPONSIBILITIES FUNDED BY ELMARK

- Design and equip your store
- Define product portfolio
- Manage inventory and availability
- Plan your stock orders
- Deliver your stock orders
- Advertise your store

YOUR RESPONSIBILITIES FUNDED BY YOU

- *Choose and rent the property*
- *Hire and lead the store staff*
- *Attract, serve and retain clients*

THE BENEFITS YOU GAIN:

TRAINING PROGRAM

Our training program is developed to transform you into a successful owner of your ELMARK store.

We provide PAPER / ONLINE / IN-STORE training that will cover all aspects of your business, up-to-date information about ELMARK, new products, the introduction of new sales techniques, trends in global and local trade.

COMMERCIAL SUPPORT

It is your flying start,a successful store and business concept, store design, training, marketing support and what is more the exclusive opportunity to distribute ELMARK products across the defined territory at exclusive prices. The dedicated franchise manager will walk beside you, answer your questions, suggest proven beneficial practices, he will guide and protect you.

"There is one rule that is common for the success across all markets around the world – to offer quality goods at balanced prices and to follow a consistent, straightforward and 'win-win' commercial policy"

Jelez Georgiev, CEO

TRAINING PROGRAM

As a member of ELMARK family you have a significant buying and negotiating power thus saving money on equipment, supplies and marketing activities

DESIGN & MERCHANDISING

We aim to provide a meaningful end-to-end customer experience and we regard the exterior and interior of our stores of great importance to the positive influence on our clients. The concept of the store aims to guarantee the effectiveness of ELMARK product presentation and decision making.

All ELMARK stores bear unified identity, easily recognized by our clients worldwide.

We provide full support in setting up your ELMARK store, funded by ELMARK.

MARKETING

We identify and understand our customers, their habits and motivation. You will benefit timely, innovative and attention-aware advertising campaigns that connect with customers and deepen their relationship with ELMARK brand and our products.
