

INFRARED INDUCTION DOORBELLS

DOORBELL & SENSOR 5022

- Vast choice of 36 melodies
- Easy to install
- Working area - up to 7 meters.
- Working frequency: 315MHz/433.92 MHz

This is a complex product that combines two appliances. It is used for advisor for guests, visitors or customers. The sensor is installed to the place that we would like to know there is a motion/ visitor, this usually is the shop entrance, offices, warehouses etc. The bell can be installed at a distance up to 130 m from the sensor which we will receive the signal for motion /visitor.
