

TECHNICAL SPECIFICATION

Infrared temperature meter EM520A

Description:

This is a digital device for measuring of temperature. The temperature is measured with no contact. It has a laser counter for precision measuring, suitable large LCD display, battery low indication and overload protection.

Technical data:

- Temperature: -20° up to 320°
- Distance to point size: 6:1
- Precision: $\pm 2^{\circ}\text{C}$ or 2% in reading
- Battery: 1x9V
- Dimensions: 90 x 155 x 45mm

Type	Packing (pcs) / carton	Catalogue number
EM520A	20	519520

Standard:

EN 61010
